

Web Development for Whitman County Veteran Services

**Sponsored By:
Becky Buri, Veterans Service Officer**

**Faculty Mentor:
Dr. Parteek Kumar, PhD**

**By:
Logan Cribbs, Chhi Ly**

**School of Electrical Engineering & Computer Science
Voiland College of Engineering and Architecture
Washington State University
Pullman, Washington
September 2025**

Team Introduction

Dear Becky Buri,

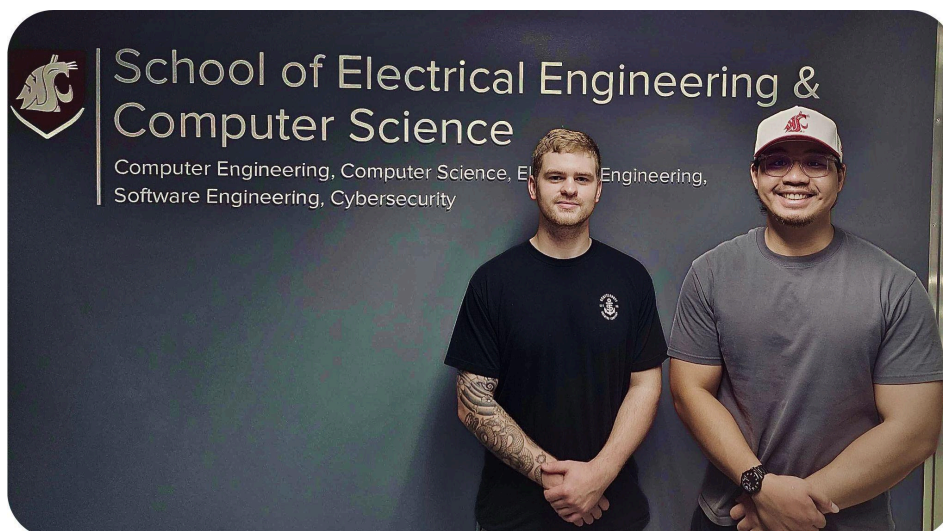

Our team is honored to be working alongside you in support of Whitman County Veterans and the continued development of the Whitman County Veterans Services website. We are excited to meet with you and further discuss the project vision of “*Empowering veterans through accessible resources and community connections.*”

This document provides a brief introduction to each of our team members. The following pages outline our backgrounds, experiences, and relevant skill sets.

Lastly, we wish to express our gratitude for the opportunity to collaborate with you and contribute to serving our veterans.

Best Regards,

Logan Cribbs & Chhi Ly

PROFESSIONAL SUMMARY

Detail-oriented undergraduate with strong object-oriented programming skills and excellent soft skills.

Experienced in leading and collaborating on technical projects to deliver high-quality results.

Recognized for discipline, adaptability, and problem-solving in agile environments.

WORK EXPERIENCE

Teaching Assistant (for CS 101, CS 121, CS 321)

Washington State University | Pullman, WA

Aug 2023 – Present

- Provided one-on-one tutoring to 10+ students weekly during office hours, enforcing class concepts.
- Collaborated with instructors to develop lesson plans and in-class activities that improved engagement.
- Assisted in delivering instructions to over 70 students in weekly lab/discussion sessions.
- Maintained accurate records of attendance, participation, and grades using Excel.

IT Technical Assistant I (at Crimson Service Desk)

Washington State University | Pullman, WA

Feb 2025 - Present

- Delivered high-quality customer support, maintaining strong satisfaction and professionalism.
- Troubleshoot hardware, software, and network issues with a critical, objective-focused approach.
- Accurately documented and resolved over 2500 technical issues and tickets with Atlassian Jira.
- Supported end users across Windows/Mac environments and various software platforms.

Event Coordinator/Committee Volunteer

The British International School of Phnom Penh | Phnom Penh, Cambodia

Sep 2018 – Feb 2020

- Helped manage and coordinate 10 sporting events with up to 300 attendees.
- Oversaw and resolved internal affairs and conflicts quickly and effectively amongst peers.
- Mentored and guided over 60 students (ages 8~18), improving overall team cooperation and sportsmanship.

SKILLS

Programming Languages: C++, C#, Python, SQL

Developer Tools: VS Code, Visual Studio Community, Git, Linux/Windows CLI, pgAdmin, AWS

General: Problem Solving, Communication, Collaboration, Documentation, Project Management, Resourceful

PROJECTS

- **Yelp Business Explorer** – Built a desktop app using Python and Qt Designer to filter Yelp business data. Parsed over 500K+ JSON records and populated a PostgreSQL database for efficient querying and UI integration.
- **Image Recognition Web App** – Developed a Python-based machine learning model achieving 98% accuracy in classifying images of cats, dogs, and birds, paired with a user-friendly web interface for result visualization.
- **WinForms Spreadsheet** – Implemented a 100×100 event-driven C# spreadsheet using object-oriented and test-driven development, supporting cell selection, highlighting, and algebraic expression evaluation.
- **Interactive Learning Web App** – Created an interactive platform to teach UI/UX principles, integrating OpenAI APIs to dynamically generate multi-level prompts inspired by Duolingo.
- **Space Invader Game** – Led end-to-end game development in C++ using SFML. Designed core mechanics, implemented collision detection, and created engaging art and graphics.

EDUCATION

Bachelor of Science in Computer Science - GPA: 3.45

Washington State University | Pullman, WA

Expected May 2026

- President's Honor Roll – Fall 2022, Spring 2025
- International Academic Award – since Summer 2022

Relevant Coursework

Object-Oriented Principles, Advanced Data Structures, Computer Network & Security, Intro to Database Systems, Software Engineering Principles, Systems Programming, Information Technology Management

Logan Cribbs

Pullman, WA

Education

Washington State University

Bachelors of Science: Computer Science

Pullman, WA

Expected in 05/2026

- **Relevant Coursework:** Software Engineering Principles 1 & 2, Programming Language Design, Intro to Computer Architecture, Advanced Data Structures & Algorithms, Professional Ethics
 - 3.3 GPA
 - Dean's List - Fall 2023
-

Summary of Qualifications

- Thorough understanding of Software Engineering design principles through coursework and projects.
 - Strong mathematical background with the ability to model real world problems.
 - Motivated and highly competitive inclination to succeed in any environment or at any task.
 - Programming languages used: C/C++, Java, Python, PostgreSQL, C#, Haskell, Java
-

Skills

- | | | | |
|--------------|------------------|-----------------------|-------------------------------|
| • Power BI | • C/C++ | • Teamwork | • Adaptability |
| • Leadership | • UI Development | • Strong communicator | • Object-oriented programming |
-

Professional Experience

Washington Army National Guard

CBRN Specialist

Bremerton, WA

09/2021 to Current

- Manage and maintain all equipment involving prevention, detection, and protection of all chemical, biological, nuclear, and radiological contaminants, all equipment is 100% functional.
- Developed an inventory system which decreased inspection times by 80% which increased unit morale.

Washington State University

Teacher's Assistant

Pullman, WA

01/2024 to 05/2024

- Taught Intro to Data Structures during the Spring 2024 semester and managed a lab of 23 students.
 - Communicated class records for attendance, assignment grades, and course participation scores reducing workload of the professor.
 - Encouraged students in learning C/C++ fundamentals and further their knowledge of data structures which led to 97% pass rate for my lab section.
-

Projects

Excel Clone | C#, WinForms

- Implemented core spreadsheet functionalities such as formula evaluation using OOP principles.
- Designed a UI that efficiently handled 100 real-time cell updates, ensuring smooth data input, formula processing, and interactive user experience.
